Bringing To You 'The Living Room Series': Where Conversation Meets Style

Chair: Ruchika Jain, Mahamaya Navlakha, Radhapriya S Bansal

September 02, 2023

With creativity as the main course and a side of unforgettable memories, we're plating the magic from our exclusive Table Couture soirée for you.

As champagne and coffee flowed, our focus remained on the exciting process of turning fallen leaves, broken teacups, and jute into genuine works of art, all under the guidance of **Ami Kothari**, our tablescape maestro who specially journeyed from Mumbai for this unique gathering.

But, you might wonder, could this event be only about table styling? Of course not! It marked the grand inauguration of our 'Living Room Series.' And if we may say so, kudos to the stylish FA Home, curated by the exceptionally talented **Aditi Thatai**, providing the perfect backdrop for our artistic endeavors.

The event's tableau boasted a selection of table styles, forcing us to think which one stole the show. Would it be the floral high tea table? An intimate dinner table for two? Or perhaps the formal sit-down table? Remarkably, it was the Indian festive season table that whisked us into the heart of upcoming celebrations.

So, here's to 'The Living Room Series' and to you, wonderful spouses of this event. You made the day what it was- a masterpiece of creativity, interactivity, and connections. We can't wait to see what the future holds, and we hope to see you all again soon. Until then, let's raise our imaginary glasses to creativity, friendship, and many more adventures in our Living Room!

Can Business Jargon Transform into Brilliance? Let's Find Out!

Chair: Nupur Goenka | Co-Chair: Aditya Tulsian, Rahul Bahl

September 15, 2023

In the words of Warren Buffet, 'It takes 20 years to build a reputation and five minutes to ruin it.'

To have those five minutes never knock at our doors, **Mihir Mankad**, the award-winning professor and communication coach helped us get the business communication tricks right up our sleeves.

The session promised the keys to unlock the secret sauce of top leaders' communication frameworks. And, to be honest, Mihir didn't just talk the talk; he walked the walk. He dazzled us with strategies that made us question our entire communication universe.

Not only did he encourage us to embrace the age-old wisdom of 'saying less is more,' he also unlocked the age-old dilemma of 'how much to say.' Spoiler alert: It is not as much as you think.

While a four-hour workshop might sound like being stuck in an elevator with one song on repeat, trust us, it wasn't. The room buzzed with energy as all participants broke into teams, sparking lively discussions and friendly debates, with each team trying to outdo the other in the art of persuasion.

This wasn't any run-of-the-mill lecture with endless presentations; this session was a fusion of knowledge and entertainment.

Mihir effectively explained the concepts of Logos, Ethos, and Pathos with a captivating short video featuring the iconic Indira Nooyi, turning a potentially dry subject into an adventure.

Filled with wisdom, wit, and just the right touch of insights, this session equipped us to conquer the business world with one compelling tale at a time, all thanks to our Rockstar, Mihir Mankad.

Trevor's Tea on Traffic Is Hotter Than The Weather. Periodt.

Chair: Gautam Baid | Co-Chair: Kshitij Rohatgi

September 22, 2023

When life gives you Delhi's traffic, make comedy jam like our Maverick, **Trevor Noah!**

You know it was good when chuckles turn into guffaws and your snickers into belly-aching roars. The man of the hour, the wizard of the wit, Trevor Noah ate and left no crumbs.

Armed with nothing but quick thinking and keen eye for hilarity, he picked cues from the crowd and spun into on-the-spot jokes faster than you could say 'laughter therapy,' and you know we are not even exaggerating.

Not being in the city for more than a few hours, Trevor soaked in the culture of city and dove into the chaos of Delhi, recounting tales of hot streets and hotter honks. The audience was not merely entertained; but literally transported into a world where only laughter echoed.

Stretching our smiles from ear to ear, we did not just witness comedy; we lived it, we breathed it, and we're still laughing about it. Delhi's traffic and heat, now feels like a stand-up routine, with each honk and jam reminiscent of Trevor's quick wit.

'Anchoring' Business Excellence with Captain Verne Harnish

Chair: Nupur Goenka | Co-Chair: Aditya Tulsian, Rahul Bahl

October 06, 2023

In the world of entrepreneurship, there are authors, and then there's **Verne Harnish**—an Enigma, a celebrated author and the visionary founder of the globally acclaimed Entrepreneurs Organization (EO), an organisation close to home which we all know have chiseled us to become better entrepreneurs.

Verne's book, 'Scaling Up', is a treasure chest filled with tricks and tools that can reveal unimaginable potential hidden within each of us. Think of it as a map to the entrepreneurs' El Dorado, with four golden keys: People, Strategy, Execution and Cash. Get them right, and you're strolling down the path to riches, profits and more time on the table. It was magic when Harnish helped us understand which category our company truly belongs.

As he spoke, we could draw an analogy of a skilled captain who maneuvers the ship through unpredictable seas. This affirms the fundamental truth that every organization demands a captain, someone to align its goals, foster a cohesive work culture, and integrate aspirations of its employees while navigating through every challenge. Most interesting part of the day was to think of market dynamics as tides— they either sink your ship, or send it cruising. Verne, our captain, equipped us with insights and tools to steer our organisation through complexity of scaling.

It's simple, folks. People create happiness, strategy drives growth, and breaking barriers is the secret recipe for a tomorrow that's more exciting.

So, what's your next move? Do you dare to discover your primal genius and set sail into unpredictable seas of 'Scaling Up' instantly? Or do you plan on letting the compass decide and guide your journey to triumph? Either way, the adventure awaits.

Syncing Hearts and Minds with Udaipur's Getaway to Wellness

Chair: Ruchika Jain, Mahamaya Navlakha, Radhapriya S Bansal

October 07-08, 2023

In the land where 'Khama Ghani' is a chorus of welcome, our group of adventurous women found ourselves at the doorstep of Prakriti Nirvana in Udaipur.

The SLP Team curated a one-of-a-kind FM channel that kept us engaged; it was a trailer to the blockbuster retreat that was about to unfold. Our royal welcome, with a shower of rose petals, was followed by a scrumptious lunch that left our taste buds dancing in delight. The retreat was like a symphony, harmonizing all the elements of healing, nutrition, and relaxation.

Designed around the five elements of nature- air, ether, water, fire, and earth, the retreat was all about balancing our chakras and making a mind body connection. With each session, we delved into the depths of our psyche, going deeper into the subconscious mind. Whether it was playing with fire element or travelling through space and time we attained a state of mental clarity, peace, and emotional well-being, free from the clouds of stress and negativity.

If wellness was the flavor of the day, dinner under the open sky nestled with beauty of prakriti stole our hearts. A regal feast awaited us as we gorged on a traditional Rajasthani dinner, satiated yet hungry for more, followed by non-stop chatter, games, and laughter.

The highlight of the retreat was our meeting with actual royalty, **Nivriti Kumariji**. Her humility and grace mesmerized us all. But wait! The day wasn't over yet. Can a retreat end without shopping? Our SLP's ensured that we had the opportunity for a retail therapy session at the majestic haveli of Vipul Shah before heading to the airport.

Pitching Life's Lessons Off The Pitch

October 10, 2023

Relive the 2011 World Cup win?
At the 'Reliving the 2011 Cricket World Cup event,' we did just that.

Joined by cricket legends **Yuvraj Singh, Virender Sehwag, and Harbhajan Singh**, the event rekindled unity, joy, and victory. These icons shared laughter, wisdom, and cricket humor, their insights reaching beyond the field.

Here are some gems that'll make you want to grab your bat and step onto the pitch of life:

Cherish your wins and have fun- Whether on field or at work, savor life's victories. Celebrate each win and have fun along the way. Life's too short to miss 'reverse sweep' moments.

Show up with a front foot forward- Face a bad day like Sehwag's fearless batting. Chin up, and keep moving forward. Life, like cricket, can change with the next ball.

Bat away the stress- Wonder how cricketers handle pressure? Focus on the present, hum a tune. Next time life tests you, conquer with a song in your heart.

Acknowledge life's 12th man- Cricket or life, it's a team sport. Your family and community, your Barmy Army, cheer you on through it all.

Practice Makes You Perfect- Legends weren't made overnight. We learned to perfect our craft, inch by inch, for our own 'six out of the park' moment.

Safe to say, the Cricket Banter Extravaganza wasn't merely an event; it was a jubilant celebration of the spirit of cricket. It was a space where legends became storytellers and attendees left with hearts full of renewed passion for both the game and life.

Anything can happen in life, just say 'Ben Stokes' and move on :)

October 21, 2023

What do History, Families, and Pizza have in common?
In short, it's a VIP experience, EO style.

The Family team hopped on the events bandwagon with a historical walk to Humayun's Tomb, one of Delhi's most beloved monuments, dating back over 500 years.

Extraordinary hunt to explore our rich heritage, hear tails of the monument and Mughal dynasty, the historical walk was curated by **India City Walks**. Besides engaging in intellectually challenging group activities, our excited bunch followed the charismatic pied pipers through the 55-acre monument to discover its political significance as Dinpanah a.k.a. Delhi.

The zest of children was so contagious, drawing active participation from the adults, who, in the process, rekindled their own inner child. The family team surprised us with a food truck into the monument's gardens, **courtesy Nidhi Ahuja**, who made the impossible, possible. Beyond catering to various dietary preferences, including Navratra food, they hit the jackpot with pizza for the kids!

This one-of-a-kind family event was a shining example of teamwork and collaboration, an endeavor that seamlessly combined history, family and culinary delights.
